PROPOSALS
FOR PUBLISHING AN
HISTORY OF THE LIFE
OF THE
ILLUSTRIOUS
GEORGE WASHINGTON,
Commander in Chief of the American armies during our revolutionary war with Great Britain, first President of the United States, and since, Lieutenant General of the Army.
BY JOSEPH SCOTT,
Author of the Modern Geographical Dictionary, *in four volumes octavo.*

OF the various methods which different writers pursue in order to convey useful knowledge to mankind, Biography stands confessedly among the first. There is none more interesting—none more instructive and entertaining. The histories of distinguished heroes, who have, by their exalted virtues, and noble and splendid actions, been the principal means of redeeming their respective countries from the corroding hand of tyranny, have in all ages been considered the most entertaining, instructive, and important to mankind. They afford example; and example is more powerful than precept. It strengthens, by a plain and easy mode of analogical reasoning, the principles of the timid, determines and fixes those that are wavering, and ultimately lays the basis for that harmony and coincidence of sentiment among the citizens; from which only, a nation can hope to derive rank, consequence and stability.
Impressed with lively sentiments of the eminent virtues of that distinguished HERO and PATRIOT, the history of whose life I have undertaken to write; it was not till after much reflection I resolved on issuing these proposals.—The following considerations induced me to this; *First*, having obtained in the course of an extensive correspondence, with many gentlemen of talents and information, a large stock of original materials concerning the life of this Illustrious Citizen; to give form and body to these, in the manner of history, will preserve many important things that otherwise would most probably be lost. *Secondly*, as many of the most interesting transactions of his life, since he resigned his commission as Commander in chief of our revolutionary armies, are very imperfectly recorded, and little understood; yet the greater part of them being fresh in the memories of many, this must be the fittest time to embody them; before a succession of objects, which every day brings forth, wears off the minuter circumstances. There are many of these circumstances important and interesting; as it is universally acknowledged, that great actions, like immense rivers, flow from small beginnings.

CONDITIONS.
I. The Life of General Washington will contain nearly 400 pages octavo, printed on fine paper, and in a style of elegance equal to any work that has appeared from an American press.
II. It will be embellished with a striking likeness of the General, executed by one of the first artists.
III. Subscribers' names will be annexed, as *patrons.*
IV. Each subscriber is to pay two dollars, one half on subscribing, the remainder on the delivery of the work.
☞ *Subscriptions in this city are received at No. 297 Arch street, next door to the north west corner of Eighth street.*

PHILADELPHIA,
MONDAY EVENING, JANUARY 6.

Legislature of Pennsylvania.

JANUARY 3.

To THOMAS M'KEAN,
Governor of the Commonwealth of Pennsylvania.

SIR,

The obligations of honor, gratitude and interest are strong ties; and when to those are added, the solemn pledge of an oath to support the constitution of the commonwealth and of the United States, which the members of the House of Representatives as well as yourself have taken, not a shadow of doubt ought to remain of your having their constant co operation in all objects which may contribute to the happiness and prosperity of our constituents.

We believe, Sir, as you in your communication to us have expressed, that the present crisis in human affairs demands the exercise of wisdom, moderation and fortitude from all who are employed in the business of government. A conduct uniformly regulated by such principles, would be rewarded in its happy effects—wise in the choice of officers, moderate in administration, and strong in the pursuit of measures which will contribute to our country's good, we might have a reasonable ground of hope, that the approbation of our constituents and the blessing of Heaven could ensue. We think it however, due to our constituents, to express our further belief, that distinguishing the State by parties and applying the epithets of traitors, tories, refugees, French aristocrats, British agents, apostate whigs, &c. to nearly one half of the freemen of the commonwealth, is far from being a testimony of such wisdom, moderation and fortitude, and will not, in the remotest degree, contribute to conciliate the opinions of the people generally.

We had accepted your communication to the Legislature as an earnest, that although your mind might have been previously disturbed by the opposition of some, you had from that moment discarded the impression of being the governor of part of the people only. We have been obliged, however, to acknowledge the fallacy of our hope, inasmuch as we have seen that many of the old soldiers and officers in our revolutionary war are to be dismissed from their present employments without even an imputation of mal dontent.

We lament the occasion which calls for this language, but animated by a spirit of republicanism, and disdaining the servility of courtly adulation, we are impelled to use it.

It would give us sincere pleasure, if, from this day, the language, *and the conduct too* of the legislative and executive branches of our government should be found to unite for the common welfare; and that our constituents should harmonize and convince the world that party animosity is merged in universal regard to our constitutional rights, and the dignity of our independence.

The above was on Tuesday last offered in the House of Representatives, as a substitute to the answer to the Governor's address which had been reported by a committee. To day it was fully debated, and on the question to postpone the reported answer to adopt the substitute, the Yeas and Nays were called, and appeared as follows, viz.

Extract of a letter received from a Gentleman in Bordeaux, to his friends in this city.

"When I embarked from America it was not without some reluctance; but I never expected to find this country in such a deplorable situation; not on account of the suspension of every commercial intercourse, but on account of the re-organization of Jacobinism of those monsters of iniquity who have sallied out again of their caverns, and who are spreading terror, desolation and civil war throughout the country. Bordeaux, that once flourishing and opulent city, and which had heretofore escaped every convulsion, has since my arrival been the object of their bloody rage. Numbers of armless and peaceable citizens having been pursued, fired upon and shot by them in different parts of the town.

"It would become too painful a task for me, was I to give you a sketch of the sinister prospects which this country in particular presents, and when contrasting the convulsed state of Europe generally with the tranquility which we enjoy in America, it seems to me that I came from a terrestial paradise, into a wilderness, where every moment is to me a moment of regret and repentance. The worst is that I find myself obliged to remain here and to wait the developement of further events."

An account of the flour inspected in the city of Baltimore, for the last quarter, ending 31st December, 1799, as returned to the Mayor by the spectators, viz.

89,316 whole barrels
5,860 half barrels

Departed this life yesterday afternoon, Mr. Abraham Stiler, an old and respectable inhabitant of the city. After attending the funeral honors of his beloved Washington, he laid down on his bed satisfied, and in a few minutes expired without a groan.

We announce with regret the melancholy, unfortunate and accidental death of Mr. Thomas Kelso, of Ann-Arundel County, a gentleman whose exit will be heard and recollected with grief by all who had the pleasure of his acquaintance.

He yesterday morning went out with a double barreled fowling piece and his dogs—they started some partridges near his house, at which he fired, and immediately ran up to the game and with the butt of the gun endeavoured to keep off the dogs—but unfortunately the other barrel, which was loaded, went off and discharged its whole contents in his left hip, which terminated his existence in a few minutes.

His friends are requested to attend his funeral to morrow morning at ten o'clock, from his late residence at Patapsco Lower Ferry to Hammond's Ferry.

Just Published,

A COMPENDIOUS SYSTEM

Of Practical Surveying and dividing of land; briefly comprized under the following heads, viz.

TWENTY-THREE Geometrical Definitions, eleven Geometrical Positions, exhibiting to view the properties and dependencies of triangles; followed by problems and examples preparatory to Trigonometry, heights and distances. Then fifteen problems and examples necessarily previous to calculating a Survey succeeded by seven surveys, the area of the four first is found geometrically, and of the whole number by difference of latitude and departure, shewing how to take an inaccessible boundary, find the bearing and distance of the closing line without running it, also the distances to an inaccessible corner from the two adjacent corners, followed by examples of offsets on to winding streams of water, shewing how to ascertain the area without the trouble of measuring the windings with chains and instruments—a crooked water course straitened, and a quantity of land on each side found by these offsets.

Ten examples of dividing land, with many subdivisions, leading into the most critical circumstances that can occur in practice; an example of Intersections, and an example shewing how the bearings of a field may be truly taken where the needle is attracted, altho' the attraction may vary in quantity and denomination at every station; examples shewing the method of measuring by the chain only. All the rules are clear and explicit. This work contains the tables of difference of latitude and departure and of logarithms.

Orders sent to Joseph and James Cruckshank, Bookfellers, No. 87, High-street, Philadelphia, Bonsall and Niles, 173, Market Street, Baltimore, or the Subscriber in Wilmington (Del.) will be duly attended to.

TO THE PUBLIC.

THE time being fixed on, when the MILITARY LAND (commonly called Knox's) WARRANTS, granted to the United States' army, are to be registered and located,—the subscribers have explored that tract of land on which those warrants are to be laid; with a view, and for the purpose of offering their services as locaters.

We take the liberty of suggesting, "that weare at least as well acquainted with the situation, quality of the soil, &c. of the different townships in the aforesaid tract, as any other person:" this will, perhaps, appear more clearly, by observing, that WILLIAM C. SCHENK assisted in running the Indian boundary line; at which time he considerably traversed that tract: he also assisted in surveying and laying it off into townships, and at other times ranged over it, to gain information. But to obtain a more complete and accurate knowledge, we have lately spent between two and three months, with several assistants, in particularly examining the different townships and quarter townships; by which means we have acquired an accurate knowledge of the whole district.—We now offer our services to the public, as Locaters, with assurances that we will locate every persons warrants intrusted to us to the best advantage, agreeably to their rights of location, which is to be determined according to law. For our services we demand the one equal tenth part, either in lands or warrants, when we locate a full tract, of four thousand acres or more, for one person or firm; the land to be taken in a square, at a corner of the tract; which corner is to be equitably determined before the time of location.—The one equal sixth part, in cash or warrants, when we connect and locate any amount less than four thousand acres. We will be in Philadelphia from December next, until after the time of location, to transact this business. Any person wishing to satisfy himself farther, will please to call on us, by letter, (postage paid) or otherwise; when due attention will be paid, and such vouchers may be seen as we have to offer, which we hope will be satisfactory.

SCHUYLKILL

PERMANENT BRIDGE.

—

For the information of the Stockholders in the company, incorporated for the erection of a Permanent Bridge over the river Schuylkill, and others of our fellow citizens who are desirous that this useful undertaking should succeed, it is thought expedient and proper, by the President and Directors of that company to state the present situation of its affairs.

THE company was incorporated on the 27th day of April, 1798; and by a clause in the law authorizing this incorporation, the legislature *may* resume the rights, &c. granted to the company, if they do not "*proceed to carry on the work*" in *two years*, and complete the bridge in *five years*, after they had been incorporated.

As soon as practicable, the company proceeded to the choice of the officers required by law; and the President and Directors have been constant in their endeavours to encrease the number of subscribers to the stock. The number of shares subscribed when the company was organized, was 5216 With all the exertions made since, it is now only 5638; though of the 15,000 contemplated by law, 12,000 (at ten dollars each) are allotted for the active capital of the company.

As the public opinion, coinciding with that of the President and Directors, appeared to be fixed on the scite at the west end of Market street, it was deemed a primary object to obtain from the corporation of the city, their right to the ferry at that place. Negociations were accordingly commenced for the purpose.—These ended in a contract with the city corporation, to the following effect—

1. 5000 dollars to be paid to the city corporation when the subscriptions to the bridge stock amount to the value of 11,000 shares—a like sum in four months thereafter with interest—5000 dollars further in eight months—and the like sum in twelve months, with interest.

2. The city corporation take, as payment for 20,000 dollars, (to make the whole consideration monies 40,000 dollars) two thousand shares in the bridge stock, on terms detailed in the contract.

3. The 11,000 shares being subscribed, and the first instalmene of the purchase monies paid, the right to the ferry and its enumerated appurtenances, with certain parts of the scite and the brick tavern, to be conveyed to the bridge company, on their mortgaging the premises, in the contract mentioned, for 15,000 dollars, the residue of the pecuniary payments, with interest.

4. If the erection is not completed in the period fixed, or which may be fixed by the legislature, the property and rights are to re vest in the corporation of the city, on terms prescribed in the contract; which contains other subordinate arrangements, too lengthy to be herein particularly detailed.

The sum agreed to be given was unavoidable. We found the councils of the city inflexibly determined not to take less. We deemed it eligible to make some sacrifices (if any we have made) to avoid competitions injurious and embarrassing, both in the commencement and progress of our intended enterprize.

Warned by experience of the fatal consequences of beginning works, requiring extensive pecuniary support, without a certainty of its being within our power, we agreed to that part of the contract requiring 11,000 shares to be actually subscribed, before it takes effect—We do not desire to conceal our indisposition to embark in this undertaking, until the number of shares subscribed shall, at least, equal that required by this contract. Nor shall we engage in the business until the instalments directed by law shall be in the treasurer's hands, to an amount sufficient to encourage us to begin the work, with solid prospects of complying with our engagements to those with whom we may contract.

We have received a number of plans in consequence of our advertisement for the purpose, but have made no selection. We shall prefer that which unites œconomy with stability, and accommodation to all circumstances attached to the place of erection. The scite must be fixed before the plan is adopted It must be perceived that a deficiency of subscriptions to our stock prevents our obtaining the scite provisionally contracted for, which, however expensive it may appear, is certainly the most eligible and productive.

We have not called for the second instalment, from those who have already subscribed, because we do not think ourselves warranted, from present appearances, to commence the work. The monies already paid (one dollar on each share subscribed, deducting our necessary expenditures, which will appear in our accounts) lie useless to us in the bank. They must remain inactive, till by further subscriptions, we are enabled to proceed in the execution of our trust; as we have no authority to employ them for any other purposes, than those directed by the act of incorporation. Our minutes and accounts will be laid before the stockholders, at the next meeting for the annual election of officers. They are always open for the inspection of the members of the company.

All the books and forms required for the progress of the business are prepared; and we are otherwise compleatly ready to proceed, if the most essential requisite were in our possession. It will be seen that there is a deficiency of 5362 shares to give validity to our contract with the city corporation, and to justify us in commencing the work.

We have a strong persuasion, founded on accurate information of the product of bridges in other states, and calculations of profit here, that investments in our stock will be equal, in point of emolument, with those made in any other permanent funds in this city. The company may divide, in biennial dividends, 15 per cent. annually during twenty-five years; and if the bridge be made free, they are to receive its value on a fair estimate—The Charles River Bridge near Boston (1500 feet long and 42 wide) cost 50,000 dollars, and yields from 20 to 24 per cent. clear of all expences. The bridge at Cambridge (7000 feet long and 42 wide) cost 80,000 dollars; and yields from 12 to 14 per cent. Some deductions have been made, to remedy defects in the timber originally used, but these expences will no longer be necessary. Immense bodies of ice assail these bridges without injury—Neither of them are better situated to command toll, than that we contemplate over the Schuylkill, which is only 400 feet wide.

Whether we shall proceed or not, depends on the disposition of our fellow citizens to encourage the undertaking. We cannot help fostering the flattering expectation, that, from motives of public spirit and private emolument, we shall yet be supported in our ardent wishes to complete an erection, eminently promotive of the interests, as well as the credit of our city.

The Rock being in itself inviting, and the object of great public utility, as well to ourselves as to our posterity, we more confidently solicit subscriptions.

By order,

RICHARD PETERS,

President.

Philadelphia, Dec. 6. (11) 2aw3w.

The Swift-Sure,

A NEW LINE OF STAGES,

NOW RUNNING BETWEEN

PHILADELPHIA & NEW-YORK,

By the short and pleasant road of

Bustleton, Newtown, Scotch-Plains, Springfield and Newark.

THE excellence of this road, the populousness of the country through which it passes, with sundry other advantages, which render it so far preferable to the Old Road through Bristol, Brunswick, &c. long ago suggested the propriety of its becoming the Grand Thorough-Fare from Philadelphia to New York. During the present year, a minute survey of it has been taken, and its superiority over the Old Road, both in winter and summer, has been clearly ascertained.—There are good bridges over all the other waters but the Delaware, and here the crossing is performed with great safety and in less than half the time required at the Trenton Ferry. The road is *several miles shorter* than the old road, but this is amongst the least of its advantages, because daily experience proves to us, that dispatch as well as comfort in travelling principally depend on the goodness of the road and the levelness of the country, and, in these respects, the New Road is, beyond all comparison, the best. It presents none of those rocky hills, which render the Old Road so fatiguing between the Delaware and Newark. The soil, too, for the greater part, is such as to produce but little mud in winter, and very little dust in summer, which circumstance, added to the beauty of the country, and a considerable proportion of shade, must always render travelling in the latter season peculiarly agreeable.

The Swift Sure starts from PHILADELPHIA, at 6 o'clock every morning (Sundays excepted) from the *GREEN TREE*, opposite the Lutheran Church, North Fourth street. It goes through Frankford to Bustleton, where it stops to Breakfast; from Bustletown it goes through Newtown to Penny-town to dinner; from Penny-town through Hopewell, Millstone, Bound-brook, Quibbletown and Plainfield to Scotch Plains to lodge. The next morning it stops at Springfield to breakfast, from whence it goes through Newark and arrives at New-York at noon.

From NEW-YORK it starts at 3 o'clock in the afternoon (from Paulus Hook) and arrives at Philadelphia the next evening. For seats at New-York, application may be made to Edward Bardin, Old Coffee house, to A. Mathieu, corner of Nassau and John streets, to B. Many, no. 48, Courtlandt, corner of Greenwich street, and to Michael Little, at his hotel, no. 43, Broad street.

Fare for passengers, *Five Dollars.*
Way passengers 6 *Cents per Mile.*

Each passenger is allowed to take on 14lbs. of baggage carriage free; but all other baggage, taken on by a passenger, will be charged at 4 cents per pound weight.

With respect to packages sent on without passengers, the proprietors presume they have adopted a regulation, which, though unknown to other lines of stages, they think must meet with general approbation, They pledge themselves to make good every package on the following conditions. The person who delivers the package at the office shall see it entered in the stage-book, for which entry he shall pay 6 cents; he will then state the value of the package, and pay (exclusive of the carriage) one per cent. on the value, as insurance, and for which he will receive a receipt. Thus, for instance, if he estimates his package at one dollar, he will pay one cent, and if at one hundred dollars, he will pay one dollar insurance, and in like proportion for packages of any other value.

Very few persons it is presumed, will dislike this regulation; it will however, be optionable with every one to avail himself of this security or not. But the proprietors think it right to state very explicitly, that they will be responsible for the safe delivery of no package, which is not regularly entered, and for which an insurance receipt cannot be produced.

In the distribution of the route, the greatest care has bren taken to fix on such places and taverns as always afford a good accommodation and entertainment for the passengers at the most reasonable rates The stages are well equipped furnished with fleet and steady horses, and committed to the care of intelligent sober and obliging drivers. The proprietors themselves live at the different towns and villages where the stages will stop, so that the conduct of the persons they employ is continually an object of their attention.—They take care also to see that the passengers are well provided for and politely treated at the taverns, and that no sort of chicanery or insolence is practised upon them; in short, they have spared neither pains nor expence to render the SWIFT-SURE the very best line of stages in America.

The line has now run nearly a month, during which time a great number of gentlemen have gone through, both from Philadelphia and New-York. Every passenger has found the road to surpass very far all that has been said of its excellence; and the Proprietors of the Swift Sure are extremely happy to hear the behaviou of their drivers, and the treatment at Taverns spoken of with the highest satisfaction.
